

Matt C. Filbert

Full-Stack Developer | Rugby Player | Mandolinist

(410) 200-1670 | mattcfilbert@gmail.com | mattcfilbert.github.io | Arlington, VA

Constantly striving to improve, I am a full-stack web developer with an editor's eye and an athlete's resolve. My drive and precision pair perfectly with my good-humored energy and enthusiasm to make me an integral part of the team.

SKILLS

Ruby | Ruby on Rails | JavaScript | HTML + CSS | Git/GitHub | Sinatra | Bootstrap | AngularJS | jQuery | PostgreSQL | Express | ReactJS | Adobe Creative Suite | Node.js | JSON | MongoDB

EXPERIENCE

General Assembly | *Web Development Immersive Student*

Washington D.C. | June - September 2017

- Gained fluency in full-stack web development by completing intensive three-month program
- Developed a portfolio of 3 individual full-stack projects and 1 group project including:
 - A nostalgia inducing pattern recognition/memorization game built using JS and jQuery
 - A full-stack app with a Rails back-end that crowdsourced candidates for local elections

The Aspen Global Leadership Network | *Front-end Developer / Communications Intern*

Washington D.C. | January - June 2017

- Served as the Aspen Global Leadership Network's (AGLN's) in-house web developer, building 20+ websites for Aspen programs using HTML, CSS, JS, and Wordpress
- Wrote/edited copy daily for AGLN articles & social media, reaching a network of thousands of the most prominent leaders in business and philanthropy
- Built the foundation of online Finance Leaders Fellowship Resource Library
- Created the official AGLN style-guide, a living document of 15+ pages that is followed by thousands of AGLN Fellows and employees across the world
- Built a 20+ page competitor analysis matrix based on extensive research on 12 competing brands

Anne Arundel County Public Schools | *IT Technician*

Annapolis, MD | December 2015 - June 2016

- Monitored and maintained servers in county public schools (Help Desk Support)
- Repaired malfunctioning computer hardware on 500+ occasions
- Collaborated with educators to provide cutting-edge technology in the classroom

GLHF Magazine | *Editor, Project Manager*

Williamsburg, VA | August 2013 - December 2015

- Organized the production of a technology magazine
- Wrote and edited copy to produce several articles
